CAREER OBJECTIVE

Motivated Computer Science undergraduate (graduating Jun 2027) with hands-on experience in AI, ML, and full-stack web development. Proven leader managing a 50-member team across 3 campus clubs. Seeking a software engineering or AI/ML role to apply technical and leadership skills in building impactful products.

EDUCATION

KLS Gogte Institute of Technology, Belagavi <i>B.Tech – Computer Science and Engineering</i>	Sep 2023 – Jun 2027 CGPA: 7.33
Alvas Pre-University College, Moodbidri <i>Pre-University Certificate – Science (PCME)</i>	Apr 2020 – Jun 2023 88.55%

TECHNICAL SKILLS

Languages: Java, Python, HTML, CSS, Bootstrap
AI/ML: Machine Learning, Computer Vision, OpenCV, Generative AI, Prompt Engineering, Multi-Agent Systems
UI/UX: Figma, Adobe XD, Adobe Creative Suite, Wireframing, Prototyping, User Research, Responsive Design
Data & BI: Power BI, Tableau, MySQL
Tools: Git, GitHub, VS Code, IntelliJ IDEA, Jira
Methods: Agile, DSA (Java), Software Engineering

PROJECTS

- AI Adaptive Personalised Learning System** | *Python, ML, Multi-Agent AI, Web Dev* Major Project
– Architected a multi-agent AI platform with 3 independent agents for study-plan generation, adaptive quiz creation, and real-time performance analytics.
– Piloted with 20 students; reported 35% improvement in study efficiency and 40% reduction in instructor course-planning time.
- FocusCheck – AI Vision System for Accommodative Infacility Detection** | *Java, OpenCV, ML* Mini Project
– Built a real-time AI screening system using Contour Point Mapping to track pupil movement frame-by-frame via webcam, achieving 89% detection accuracy.
– Developed a web-based clinician dashboard for session logging, trend plotting, and PDF report export; reduced screening cost by 70% vs clinical equipment.
- Maas Magic – AI-Powered Smart Cloud Kitchen Platform** | *Python, ML, Web Dev* **Top 15/83** – Titan × InUnity, Jan 2026
– Built ML-based demand forecasting model with 80% accuracy, reducing food wastage by 35%; integrated AI recommendation engine boosting repeat orders.
– Secured Top 15 out of 83 city-level teams; received funding opportunity from KLS GRID for real-world deployment potential.

INTERNSHIP

- Web Development Intern** Jul 2025 – Oct 2025
Computronics Software Lab Belagavi, Karnataka
– Built and deployed 5+ responsive web pages (HTML, CSS, Bootstrap) with REST API + MySQL integration; reduced manual data-entry effort by 25%.
– Created UI prototypes and user-flow diagrams in Figma, cutting revision cycles from 4 to 2 per sprint; established component-reuse standards, decreasing UI bug reports by 30%.

LEADERSHIP & POSITIONS OF RESPONSIBILITY

- President – Engineers Without Borders, KLS GIT Chapter** Jan 2025 – Dec 2026
– Led a 50-member chapter with 8 core leads; planned 8+ initiatives (workshops, rural drives, inter-college events) impacting 200+ students; improved event satisfaction by 40%.
- Social Media Lead – Engineers Without Borders** Mar 2024 – Dec 2025
– Grew chapter Instagram/LinkedIn following by 60% in 8 months; designed 50+ visual assets using Adobe Creative Suite.
- Event Lead – UiPath RPA Innovators, KLS GIT Chapter** Jan 2024 – Jan 2025
– Planned and executed 4+ RPA workshops/hackathons; onboarded and mentored 30+ new members on RPA fundamentals using UiPath.
